SUMMARY

Final year Interaction Design student at UPES with a strong interest in Product Design, UX Research, and Interaction Design. Through academic and personal projects, I have developed skills in Information Architecture, user research, user flows, wireframing, prototyping, usability testing, and Material Design 3. Passionate about designing products by balancing user needs, technical feasibility, product strategy, and business goals.

EDUCATION

Interaction Design, Bachelor of Design, UPES 07/2023 – Present | **Dehradun, India**
Current CGPA - 8.15

CBSE Higher Secondary Certificate, Delhi World Public School 2022 – 2023 | **Greater Noida, India**
Percentage - 78.2

CBSE Secondary School Certificate, Delhi World Public School 2020 – 2021 | **Greater Noida, India**
Percentage - 83.4

EXPERIENCE

UI Designer Intern, 1 Artifact Decor 06/2025 – 07/2025 | **Agra, India**

- Designed wireframes and UI for a product catalogue website in Figma as part of a four-member design team, contributing to the Home, About, Product Listing, Category, and Product Detail pages.
- Collaborated with the graphic design team to improve the visual structure and layout of the company's print product catalogue through design reviews.

PROJECTS

Plex, AI-Powered Productivity & Intelligent Planning System 06/2026 – Present

- Designed an AI-powered productivity system that transforms natural-language input into realistic schedules by considering priorities, deadlines, available time, routines, and user context.
- Defined the product vision, feature strategy, Information Architecture, user flows, wireframes, interaction design, design system, and high-fidelity UI through 150+ design iterations.
- Collaborating with an AI/ML engineer to develop a local-first MVP combining intelligent scheduling, adaptive planning, user-controlled automation, and privacy-first AI.

Cubicon, Material Design 3 E-commerce Case Study 08/2025 – 09/2025

- Designed a mobile-first e-commerce application to improve the Rubik's Cube shopping experience using Interaction Design and Material Design 3 principles.
- Designed the user experience by creating Information Architecture, user flows, wireframes, high-fidelity UI, and conducting usability testing in Figma.
- Applied Material Design 3 guidelines to create reusable UI components, intuitive interactions, and a consistent shopping experience.

SKILLS

Design Skills: User Experience Design | Product Design | UX Research | Interaction Design | Design Systems | Information Architecture | Usability Testing | Material Design 3 | User-Centered Design | Product Strategy | UI Design | User Flows | Wireframing | Prototyping | Problem Solving

Tools: Figma | FigJam | Framer | Adobe Photoshop | Adobe Illustrator | Google Antigravity | Visual Studio Code
